Raven K-12 Launch In-App Messaging Protect B.png

Expand your Flock Safety network by introducing your community schools to a new Raven® Audio Detection service that can integrate with your agency's Falcon® LPR system. For $10,000 per year, schools in your community can cover one school building's exterior grounds.

Raven® identifies gunshots outside the school building, alerting school officials and cooperating agencies in less than 60 seconds. This new school service is designed to make this technology affordable, extending safety throughout your community.

Share this opportunity with your area school safety departments, so you can:

√ Detect and locate gunshots minutes before 911 is called
√ Reduce false positives so you don't waste time on unnecessary calls for service
√ Offer faster, coordinated response with schools when gun violence occurs
√ Get complete, real-time information by pairing gunshot detection with cameras or video

Learn more about Raven® for schools
